

Advanced Solutions Tailored to Your Energy Needs

The energy sector is becoming increasingly complex. Technologies are evolving rapidly. Climate change is adding new risk. The pressure to operate more efficiently and sustainability is mounting. Is your organization ready for the new world of energy?

Our Distributed Energy Solutions (DES) team specializes in developing turnkey energy solutions tailored to your unique needs and goals, with **zero upfront capital investment** required.

Trust us to address your most complex energy challenges. We know the energy world from the inside out. We are part of the Alectra Inc. family, which includes the second largest municipally-owned electricity distribution company in North America. We also have long-standing relationships with global energy technology companies, our provincial system operator, and with many other local energy distributors.

Energy-as-a-Service: A New Approach

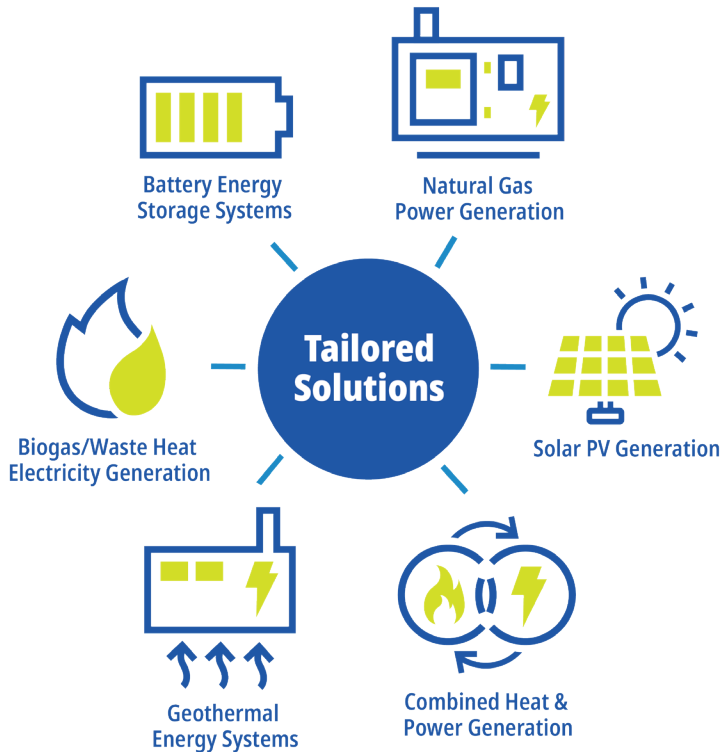

We make energy management simple with our Energy-as-a-Service approach – delivering customized energy solutions that provide:

- Zero ownership and operational risk
- Long-term cost certainty
- Energy cost optimization
- Competitively-priced Power Purchase Agreements
- Guaranteed service and reliability

Focus on your core business, and leave the financing, design/build, operation and maintenance of your tailor-made energy solution to us.

Solutions You Can Trust

We can help balance your organization's sustainability targets and operational costs by leveraging the power of distributed energy solutions and renewable energy technologies. Any one or a combination of these advanced technologies, can be included as your energy solution.

Simplifying Your Energy Future

Our goal is to make your energy world as simple as possible – and your transition to the future seamless. No matter what sector you're in, our work always starts with a detailed analysis of your energy profile, followed by a recommended solution that will aid in achieving your organization's energy management, resiliency and sustainability goals.

Alectra Energy Solutions: Your one-stop shop for future-ready energy solutions.
